Shark App Urban Management via Smartphone

Use the Shark App to inventory and manage urban objects like receptacles and benches via Smartphone. Collection, cleaning and repairs can be carried out in real time and, if desired, the action recorded with a photo. Keep an eye on your furnishings, place orders to employees on site and increase work process efficiency. The Shark App is the ideal and free complement to our popular Shark Island – guaranteeing a clean and well-maintained image of your town or community.

What you need

- Smartphone (Android or iOS) with NFC Reader
- Shark App (free from Google Play or App Store)
- Shark Island with the ticket “Inventory” or higher
- NFC tags mounted to your objects

How the Shark App works

- Affix NFC tag and select “Enter object” in the Shark App
- Record collections, cleaning, etc. directly through the app
- Automatic synchronisation with the Shark Island and Shark App

Your Benefits

- Easy, fast placing and management of orders
- Overview in real time
- Detailed information and order history for each object
- Basic analysis of regions or locations in the Shark Island
- Up-to-date, digital inventory any time

NFC Tag

- IP68 protection rating
- Resistant to heat and cold
- Strong 3M adhesive
- Can be used on metal surfaces (on-metal/anti-metal)
