Fontana drinking fountain – the popular water dispenser

Impresses with its unique design

Whether in a green park, along a walkway or in a busy school yard

: The Fontana drinking fountain made with brushed stainless steel impresses with its timeless design and functionality.

Enjoy fresh water on the go

Whether to quench your thirst or wash your hands: coming across fresh drinking water can be a godsend. ANTA SWISS AG offers the ideal solution for public spaces with the Fontana drinking fountain. Wherever it stands, it offers people clean water all times.

Timeless design

The Fontana drinking fountain features a modern and simple design that blends in beautifully with its surroundings.

The Fontana drinking fountain is produced with brushed stainless steel, which ensures an especially long service life.

Easy to use

Operating the Fontana drinking fountain is child's play: At the touch of a button, fresh water bubbles out of the drinking fountain nozzle. The drinking fountain can be opened on the back with a special triangular key (supplied).

From a single product line

The Fontana drinking fountain fits into the product range of designer and inventor Werner Zemp. It thus

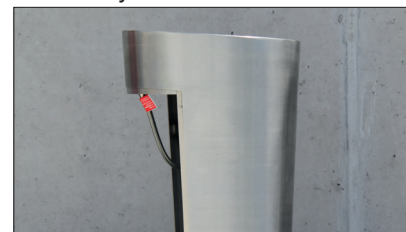

Enjoy fresh water at the touch of a button.

ideally complements the Litter-sharks and benches from ANTA SWISS AG. All products in this line are made of high quality stainless steel and are well conceived in terms of design and function.

Legionella protection thanks to the adjustable flushing module with interval operation ranging from 0.5 to 24 hours and flushing duration from 10 to 180 seconds. Entirely self-sufficient system with a 9 V battery.

Easily accessible thanks to the new service opening.
