

Logo data submission

Dear Customer

To ensure that your logo is transferred correctly, see the brief overview of our file transfer guidelines below. Please take the time to read them carefully.

You can submit your logo file in the following formats:

- **PDF** (Portable Document Format)
- **EPS** (Encapsulated PostScript)
- **AI** (Adobe Illustrator)

Please note that fonts in these file formats must be vectorised. If you are not sure how your data is structured, we recommend that you first contact the creator of the file, be it your graphic designer, copy shop or similar.

If you would like to use a new logo, please provide your corporate design at the same time. This allows us to edit your logo accordingly, especially if it contains shading or special design elements.

Please note that your logo or crest can only be etched fully in black. Neither shading nor colour is possible with etching.
